Note 1: The average FER of an MPF scheme is the average FER of all constituent funds offered under the scheme weighted by their respective net asset values. The figures are for reference only and do not represent the fee rates charged to individual scheme members. Actual amounts of fees charged to scheme members are based on the FER of the constituent funds selected by the scheme members.

Note 2: An MPF constituent fund may offer different fund classes for contribution accounts and personal accounts or for employers of different sizes, and different management fee rates may apply to different fund classes.
